

Know your spiritual roots with:
FIRST 20 Centuries,
A.D. of the New
Testament Church
(and Christ's Champions of Faith)

36 pages retell highlights in story form that's a great review for adults or an introduction to a younger generation. Christ-centered and filled with the Gospel, each page comes with a memory verse and Biblical references for additional review in the classroom or with personal devotions.

This is a sophisticated Coloring Book format,

...with many possible applications including: Summer Sun. School (combining grade levels), supplement for Confirmation class, for a parochial religion curriculum, home schooling, or Pastor's Class. It can serve as a 15-16 week adult Bible course or as a give-away gift to visiting families or at a county fair church booth. Don't forget V.B.S. and our senior citizens *or just for you*. The introduction to parents, guardians, and teachers offers other ideas for use in various settings. This is a great follow up to "The 500th Reformation Anniversary" editions in a similar format. Let's not be unfamiliar with the faithful who've gone before us!
